

After agonizing whether or not to hold our 2020 National Night Out event, the National Night Out committee and the Village of Mukwonago Police Department have decided to **cancel our event**.

The National Night Out organization has recommended postponing events until October because of the current COVID-19 situation. However, we have decided against this. Many of our events are meant to take place on a warm summer night, not a cool fall night. Another factor in our decision is the current economic situation. This event is possible because of the generous donations of many businesses in the community. Many of those businesses have just opened after being closed for a couple of months and we do not feel the time is right to ask them to contribute again.

We will be back in August of 2021.
